

Recommended Internal HDDs and External CD-R/CD-RW Drives

Recommended Internal HDDs (IDE-compatible 40-pin type)

Manufacturer	Model Number	Capacity
Seagate	ST34311A	4.3GB
Seagate	ST36421A	6.4GB
Seagate	ST38421A	8.4GB
Western	Digital AC313000	13GB
Quantum	FireBall CR4.3AT	4.3GB
Quantum	FireBall CR6.4AT	6.4GB
Quantum	FireBall CR8.4AT	8.4GB
Quantum	FireBall CR13.0AT	13GB

Notes

- If you connect a hard disk with a capacity of more than 8GB, you will only be able to use a maximum of 8GB.
- IBM uses the same model number for both its 68-pin and 80-pin SCSI hard disks. Be careful.

Quantum hard disks are compatible with A4000/5000 version 1.07 and later. The update can be downloaded free from [Yamaha's related Web page](#).

Recommended External CD-R/CD-RW Drives

Manufacturer	Model Number
Yamaha	CRW4416SX
Yamaha	CRW6416SX
Yamaha	CRW8424SX

Notes

- In order to use the CRW4416SX, the unit's firmware must be version 1.0h or later, and to use the CRW6416SX, it must be version 1.0c or later. The latest firmware for each model can be downloaded free from [Yamaha's related Web page](#)
- The CRW8424SX is compatible with A4000/5000 version 1.07 and later. The update can be downloaded free from [Yamaha's related Web page](#).

It is not possible for Yamaha to check all available models of external CD-ROM drives for compatibility. However, there should be no problem as long as the CD-ROM drive uses a 50-pin SCSI connection. Internal CD-ROM drives from a PC cannot be used. MO disks with capacities of more than 640MB cannot be used. However, there is no problem in using 540MB and 230MB disks with a 640MB MO drive.
